PROFESSIONAL SUMMARY

Business Intelligence and Management Control Analyst with 6+ years of experience delivering analytical solutions for Finance and Operations teams across Latin America and North America. Former Regional BI Analyst at Maersk Logistics & Services, recognized with the Star Award 2024 for leading the Weekly Volumetric Dashboard adopted as the regional standard across LAM and NAM.

Specialist in Power BI (DAX, Dataflows, Datamarts), Python (scikit-learn), SQL and financial modeling — with a proven track record in P&L analysis, monthly financial close, budget control (OPEX/SG&A), volume forecasting and executive reporting for senior leadership and management committees.

Industrial Civil Engineer with a Master's degree in Engineering Sciences, Universidad Diego Portales.

PROFESSIONAL EXPERIENCE

Regional Business Intelligence Analyst

08/2023 – 04/2026

Maersk Logistics & Services — Business Intelligence & Analytics LAM · Santiago, Chile

- Designed and automated 10+ financial and operational Power BI dashboards (revenue, costs, margins, forecast, budget) for LAM/NAM, used weekly by 120+ stakeholders across Finance, Operations and Commercial.
- Implemented a data architecture in Power BI Service (Dataflows and Datamarts) that reduced the regional reporting cycle time by 40% (from 6 to 3.5 hours per week), centralizing data transformation and eliminating recurring manual dependencies.
- Developed linear regression models in Python (scikit-learn) for volume and product performance forecasting, achieving an error rate below 8% and supporting regional quarterly planning and cost allocation.
- Standardized financial reporting methodology, developing an internal manual and training 8 analysts, establishing a single source of truth for regional P&L KPIs and reducing cross-area inconsistencies.
- Consolidated the regional Account Receivable report by integrating 7+ heterogeneous systems (Dynamics, IFS, SAP, Nodum, MACS, DACS, CargoWise) in Power BI Service, unifying dispersed sources into a single data model for LAM/NAM collections tracking.

Financial Data Analyst

03/2022 – 07/2023

Maersk Logistics & Services — Finance WSA · Santiago, Chile

- Executed the monthly financial close for the WSA region, analyzing OPEX/SG&A budget variances and forecast deviations, presenting KPIs and management insights to senior management on a monthly basis.
- Built the P&L WSA report from scratch, establishing it as the regional financial cycle standard and eliminating reliance on dispersed reports across business areas.
- Automated the annual budget consolidation process, reducing the preliminary close time from 5 hours to 30 minutes, freeing Finance team capacity for higher-value analysis.
- Developed forecasting models that improved quarterly projection accuracy, supporting budget planning and decision-making for Finance and Operations.

Data Analyst

09/2020 – 02/2022

Falabella Retail S.A. — Inventory Control · Santiago, Chile

- Led inventory simulations to detect losses and operational errors, reducing process execution time by 75%, enabling faster decision-making in logistics management.
- Developed and analyzed KPIs in SQL, Python and Power BI to support logistics area decision-making.
- Designed and maintained Power BI dashboards for critical internal process tracking and logistics KPI monitoring.
- Modeled processes in Bizagi (inputs, outputs, storage), formalizing workflows for organizational standardization and continuous improvement.

Business Intelligence Analyst

01/2020 – 04/2020

Cuponatic LATAM SpA · Santiago, Chile (scoped BI migration project)

- Led the migration of corporate reporting from Pentaho to Power BI, covering all business areas of the company.

EDUCATION

Diploma in Logistics for Industry 4.0

06/2021 – 11/2021

Universidad de Chile · Santiago, Chile

Master of Science in Engineering, Industrial Track

03/2018 – 06/2019

Universidad Diego Portales · Santiago, Chile

Industrial Civil Engineering

03/2013 – 07/2018

Universidad Diego Portales · Santiago, Chile
